GENERAL INFORMATION

ORDERING. Use the enclosed order form. By giving us the information requested, it helps us to fill your order properly.

TERMS. Cash with order. We do not solicit orders under \$2.00. All orders for \$5.00 or over will be shipped prepaid. Under that amount, please include 35% for packing and shipping.

BULB SIZES: Large size (L) 1-1/2" and over = Medium size (M) 3/4" - 1-1/2"
Small size (S) under 3/4"

Large and medium-size bulbs will bloom the first year planted as will small bulbs of some varieties. Bulblets (Blts.) usually require two years of good growing conditions to produce flowering-size bulbs.

SHIPMENTS. We usually start shipping soon after March 1st, depending upon weather conditions. Express shipments are safest, so be sure and note your express office on the order blank. Due to the higher express rates, we will ship by parcel post whenever possible.

OUR GUARANTEE. We guarantee our bulbs to be free of disease and true to name. Open and examine shipments immediately upon arrival. If unsatisfactory, notify us at once. Due to conditions beyond our control, we cannot guarantee growth or production. At no time will we be responsible for more than the original cost of bulbs.

COLOR CLASSIFICATION AND "DAYS TO BLOOM". The number directly under the variety name indicates the color class that the variety should be entered in at all major shows. The first numeral in the classification number also indicates the approximate size of the individual florets. The number in parentheses opposite the variety name indicates the approximate number of days it takes large bulbs to bloom.

UPON RECEIPT OF BULBS open package to admit air and store in a cool, dry place until planting time. CAUTION. Bulbs are treated with D.D.T. dust.

GLADIOLUS CULTURE. Complete instructions for planting, growing and storage of bulbs will be included with each order.

<u>RED WING (85)</u> 436	Beautiful scarlet with lower petals slightly deeper color. 8 or more florets open. A great show winner.
<u>ROSE CHARM (65)</u> 360	Light rose with cream throat. Very pretty and one of the earliest to bloom. 6 open on a medium-tall stem.
<u>SPIC & SPAN ()</u> 444	One of the best salmon pinks. Always a contender at the shows. Has won all top awards. 8-10 florets open on a tall stem.
<u>SPOTLIGHT (80)</u> 413	Attractive yellow with red blotch in throat. 6 open on a very tall stem. One of the most popular yellows.

<u>SUNDANCE (87)</u> 412	Slightly lighter color than Spotlight and minus the blotch. Opens 6-8 florets on a medium-tall stem. Good show variety.
<u>SUNSPOT (80)</u> 417	Light apricot-buff with rose spot in throat. Has won nearly all top-show awards. 8 open on tall stems.
<u>TIVOLI (90)</u> 442	If I were to grow only one light pink, Tivoli would be it. Color has some rose in it. Makes beautiful spikes holding 6-8 nicely-arranged florets open. A grand cut flower, and well-grown spikes will beat most of the new ones at the shows.
<u>VAGABOND PRINCE (80)</u> 391	Continues its popularity as one of the best "smokies". Smoky mahogany with flame red blotch in throat. 6 open on a medium-tall stem.
<u>WHITE CHALLENGE (90)</u> 501	Huge white with rose throat mark. 8-10 florets open. A great prize winner at the shows.
